Class History

In September of 1958, sixty-five students entered Cory-Rawson High School. We were sent to a Home Room, here we were introduced to our Sponsors, Mrs. Zimmerman, Mrs. Reeder and Mr. Dilbone. After our class was organized we elected our class officers: President, Ann Powell; Vice President, Roy Young; Secretary, Donna Moser; and Treasurer, Pat Inbody. During the year Teressa Vela and Clair Houdeshell left. Larry Montgomery was welcomed into the class.

We were guided through our Sophomore year by our sponsors Mr. Jeong and Mr. Marshall. After a few difficulties we elected our class officers, President Tom Sullivan; Vice-President, Tom Dorman; Secretary, Kay Seartoss; Treasurer, Jean Schaller. During the year we lost Larry Montgomey and Teressa Vela. We welcomed to our class Gene Montgomery and Larry Zent.

By our Junior year we were pretty much accustomed to the routine but our sponsors Mr. Deeds, Mr. Cook, and Mr. Neiderhiser still helped us through our Prom and other problems. We elected our class officers: President, Tom Webb; Vice President, Tom Sullivan; Secretary, Janice Redd; Treasurer, Gloria Rettig. During the year Marilyn Driftmeyer and Charlene Williams left. Our class welcomed Dennis Leeper and Oscar Gonzalez.

Well, here we are in our senior year, still needing guidance by our sponsors, Mr. Clevidence, Mr. Berry, and Mr. Thomas. Our Class officers are President, Tom Sullivan; Vice President, Tom Webb; Secretary, Janice Redd; Treasurer, Karen Sheidler. This year we lost Oscar Gonzalez.

After graduation we will go on our Senior trip. This is the one thing we have looked forward to for the past four years. It will not only be the event that we will remember the most during our High School Days, but it will be the last time we will be together as one group.

It is now 1977 and I Rosella Schaller am married to a rich bachelor. I have decided to take a trip to outer space and it's planets.

On my trip there I saw these people at work, Jim Ludwig, Mary Boehm, Ruth Boehm, Mary Bormuth and Philip Vermillion, running all over the place catching falling stars and putting them in their pockets.

After a while we came to the milky way. This job employed four people. Pauline Coleman, Dick Johnson, Diane Crawfis and Jean Schaller. They were taking bits from the milky way and making Milky Way Candy bars.

That night after reaching Pluto I was introduced to the king and queen of outer space, Kay Searfoss and Gene Montgomery. Being a bit exhausted I thought I would relax by reading a rewritten, Macbeth, by Evelyn Rettig. After finishing this refreshing story I thought I would watch television for awhile before retiring, I was thrilled when I saw Eddie Armbrecht, Richard Badertscher and Ronnie Kagy, playing the parts of the three Stooges. The next show was the Arthur Murray's Dance Studio Review, it was very captivating to see Jerry Wolford, Elaine Taylor, Carol Hicks (Moser), and Bonnie Honse (Stultz) teaching their students to do the Neptune Twist.

The next morning when I woke up I went outside to get some fresh air and there I met Jim Brewster, Mike Betts, and Eldon Betts. I asked them what they were doing and they said they were raising dogs on Pluto. I then went to the post office to get my mail and there was a letter from Mt. Idie. At the post office I met the heads of the transplant Postal Service, Tom Webb and Tom Dorman. Of Course there was the usual circulars, one of them was announcing the opening of two shops. One was the Helen Smith and Linda Shepler shop that designs Men's Space Suits and the other one was the Paul Smith and Clair's Shop that designs Women's Space Suits. Both shops were having their grand opening.

Today I am to take a tour of some of the industries of the Planets. I will start out by going to Mercury. Now that I am on my way I shall report my findings as I go along. I stopped at the thermometer business where I saw Doris Rausch and Diane Gruber making thermometers. Then on to Venus. There I met two great mathematicians, Gary Welch and Betty Wolford at work on this formula for Rocket Propulsion Pb $+2HC_2$ $H30^2 + H^2 S O^4 + 2 N A C l + 2nd O H = ?$ We also saw and watched John Wilson and Roy Young showing birds how to fly in complete weightlessness. Also in Venus we went to a machine company where Denny Leeper, John Hemminger and John Dilts were making huge crater diggers which they invented. Our next flight took us to Uranus. Here we found three scientists Gloria Rettig, Cathy Wilson and Tom Sullivan trying to devise a way to dodge radiation. We met Bob Rader and Mike Freed, they were operating turbines to produce electricity by harnessing the power of the sun. Our last stop was on the moon where we went to the cheese factory operated by Janice Redd and Ann Powell who are green cheese packers. We also visited Karen and Sharon Sheidler who are private Secretaries to the man in the moon. We also met Tom McDougle who is a salesman for a product of Dwayne Bauman and Pat Inbody, a new type of fallout shelters.

While we were here the Olympic games were being held. Some of the results were: First place for the team of Pat Hledman, Barbara Foos, and Janet Warren for experiencing the longest period of weightlessness. Martha Wilkins, Pat Marquart, and Donna Moser won the contest for jumping from the most meteors.

I went to the Peggy Wilson beauty salon to have my hair fixed in preparation for the dinner engagement I have with the King and Queen. Peggy is reversing hair styles. At dinner I met the exotic cooks employed by the King and Queen, Annette Steiner and Richard Tighe. During our conversation the King mentioned that Ken Camper, Commander of the Space Ship Army, had just received a gold medal for bravery. Upon departing for a return to Earth I invited each of them to take a few hours away from their work and revisit the Earth and their old friends.

Goofed

Getting all the wrong answers from the man in the snappy blue uniform, the new ROTC officer took out his pad. "What's your outfit?" he asked.
"Me? I'm the Coca Cola man."

The American Way

If you are dissatisfied with the way things are done in Washington, just remember — you don't have to like everything about the government, but you certainly have to hand it to the Internal Revenue Bureau.

"Read the chart over there" he commanded.
"What chart?" asked the draftee.
"That's right," said the physician, "there isn't any chart. You're in boy!"

Cowboy: "What kind of a saddle do you want--one with a horn or without?"

He isn't sure of where to go
Or what he ought to do
His hopes range through a dozen fields
Although his skills are few;
And unless someone lends a hand
To guide him on his way
There may be one more problem child
Whose keep we all must pay.

So Why not take a little time
To sit down with him now,
And find out what he likes to do
And where he lives, and how?
For there's a place for everyone
Plus a job that he can do,
If a friend would only show the way--
That friend might well be you.
